Notes

This afternoon my group of 4 was riding up out of Tepee Creek heading towards Cabin Creek and I set off this small [slide](#) on a northeast facing slope as I was coming down it. The [slide](#) broke about a foot deep on top of the packed layer of snow and was 150-200' wide at the crown. Thankfully it slid slowly, less than 100' and I was able to ride out of it.
