Big Slide on Eaglehead Mountain

Portal Creek Northern Gallatin 3/2/2024 Code Latitude 45.28900 Longitude -111.14100 Notes

From obs on 03/07/2024: "Big <u>slide</u> below the radio tower. Kept our distance but looks like a large crown. The base up Portal is really inconsistent. Some spots it's great and others you sink up to your chest. Had 4 instances of whompfing on fairly flat ground in the trees. 1st picture is from today and 2nd is from Sunday"
