

March 9 Round Lake/ East Side Sheep Mountain Avalanche

Date

Sat, 03/09/2024 - 13:00

We saw the slide happen. Maybe 200 yards wide 4 to 10 ft deep crown. Triggered by a guy riding along in the run out zone, he was partially buried and got himself out. One of the kids has some photos in this phone, we will try to send them shortly.
