

Large avalanche on Gardner headwall

Date

Sat, 06/01/2024 - 13:40

Activity

Skiing

Photos from IG messages on June 1 2024: "there were two riders and a dog on the slope. One rider was partially caught and rode out when everything stopped moving. The dog was very afraid and got stuck at the crown and rocks on the lookers left. Happened about 3pm today within the first 20 riders. Started with a small slide and propagated much larger when it got closer to the rocks."

Region

Out of Advisory Area

Location (from list)

Beartooth Pass
